

AP Commando, Buoyancy Compensator

Description:

The AP Commando buoyancy compensator offers superior build quality by making use of the 1000 denier twin-bag construction. It also uses the unique AP reflex comfort-fit system that allows the diver to adjust the jacket fit and

customise it specifically for their individual shape with a one-time simple set-up adjustment in the height position of the waistband, shoulder buckles and the backplate length. The AP Commando comes with multiple lightweight aluminium 50mm D-rings - pre-bent to stand-off for easy clip-on.

Gear Bags

Description:

A selection of backpacks and

barrel bags in PVC material is available. Wheeled bags can also be supplied.

Military Holdall, Diver Bag

Description:

The Military 160L Hold-All is constructed from PVC top spec material, this bag is supplied to

the UK MOD but loved by all divers. This bag is completely washable and comes complete with smaller inner bag

Voyager, Drybag Rucksack

Description:

This Drybag Rucksack is manufactured from a very heavy duty PVC backed Cordura material, combining superior abrasion resistance with a fully washable interior. It features a 'roll-down' top, to keep the water out and keep the water in (if you are transporting wet items). It including a 'four point compression' strap system, to

reduce the height (if the bag is not filled to capacity). It is easy to carry, using the attached padded and adjustable rucksack straps or the top mounted 'webbing' handle.

Specifications:

Size: 75cm x 40cm x 26cm (Expanded)
Volume: 78 Litres
