

Half Mask

Description:

A selection of three silicone masks, to ensure fit for a variety of faces, is available. These half masks are ideal for use as back-up masks. It's not

easily damaged, features excellent vision, low volume, and buckles on the skirt which allows for excellent facial seal as the silicone facial seal is not limited by the lens frame.

Order Detail:

Diver. Mask Silicone, BLACK	D-PD-328

Full Face Mask Interspiro Divator (AGA)

Description:

The low volume visor reduces the positive buoyancy generated from air inside the mask and the low volume dead space reduces re-inhalation of CO², while the Soft and flexible sealing prevent leakage. The balanced Divator Mask breathing valve is one of the best-tested breathing valves available and will perform even under the most extreme conditions; mud, oil, and fast flowing cold currents does not have a serious impact on the performance. The mask is equipped with retainers for goggle frames and it is prepared for underwater communication. The communication capabilities are enhanced by the airflow design that considerably reduces turbulence noise. The

standard Divator Mask is equipped with easily adjusted push pads for pressure equalizing of ears and spoilers to prevent mist to be formed on the visor and is very easy to drain from water filling; simply press one button and hold the lower part of the face mask out from the face.

Features:

- Unrivalled quality and construction
- Excellent field of vision
- Balanced breathing valve high air flow for low breathing resistance
- CE89/686 CEE Approval En250
- Head up display for low pressure warning
- Spectacle kit (breathing valve not included)

Order Detail:

Diver FF Mask Divator Mask, Black Silicon with Breathing Valve w/o Positive Pressure. (excl comms)	D-PD-330
Diver FF Mask Divator Mask Grey Natural Rubber includes Breathing Valve w Positive Pressure (excl comms and excl hose)	D-PD-331
Diver FF Mask Divator Mask Grey Natural Rubber includes Breathing Valve, w/o Pos Pres (excl comms and excl hose)	D-PD-332
Diver FF Mask Divator Mask Yellow Silicon includes Breathing Valve w/o Positive Pres - no hose (excl comms)	D-PD-333
